

**Loupe Brothers Yosemite & Eastern Sierra Workshop**  
**October 9<sup>h</sup> – October 14<sup>th</sup> 2018**

The grandeur of Yosemite at the most colorful time of year. The leaves provide a beautiful scene to frame the magnificent splendor of Yosemite National Park's famous peaks. Sunset at Half Dome and Sunrise at El Capitan.

Capturing the beauty of the Eastern Sierras diverse landscape with rivers of gold foliage winding down the canyons. Mono lake with it's spectacular Tufas and pristine waters. The 4000 year old Bristlecone Pines in the White Mountains of Nevada. The Alabama Hills magnificent and unique rock formations that have been the backdrop for over a thousand movies and television productions. Trace the steps of great photographers past in the Owens Valley.

Professional photographers and tour guides Doc Miles ([docmilesphototours.com](http://docmilesphototours.com)) and Doug Whitney ([dprestonwhitney.com](http://dprestonwhitney.com)) have spent over ten years photographing Yosemite and The Eastern Sierra together. They have extensive knowledge of where and when to get the best images of the area. They provide instruction, guidance and to assure you get the very best shots. Experts in Lightroom and Photoshop, they will guide you through the post processing as you enhance your treasured photographs. We will combine the tour with digital workflow and a couple of image review sessions that are always a favorite.
